Who Needs My Book?

Please Tell Me Some Sick One Who Needs My Help.

No Money is Wanted.

Have you a friend who needs help? Will you spend a penny to cure him or her?

I ask only a postal card. Just the name and address of some sick one; tell me which

I will fornish him the best help that medicine can give. I will offer it in such a way that he can not decline it. There will be nothing to pay if I fail.

I will even do thia:

With the book I will send an order on your druggist for six betiles Dr. Shoop's Restorative. I will authorize rour druggist to let the sick one take it for a month. If it succeeds, the cost is \$5.50. If it falls, I will send your druggist my check for it. I will leave the decision to the person who is sick. Please note what that means.

Suppose you were sick, and common treatments had falled with

you. Suppose you were discouraged. Suppose a well known physician came to you and said: "Here is a remedy that I spent a lifetime in perfecting. I have tested it in more than 600,000 cases, and I know what it will do. Take it at my risk, and if it fails I will pay for it."

When this physician showed such faith as that, would you perject his offer? No; and your sick friend will not,

I do not always succeed.

Some conditions have causes, like cancer, which I can not cure, But such conditions are so rare that I take the risk with all. My records for years show that 30 in each 40 who get those six bottles pay for them, because they get well.

It results from the fact that I have learned how to strengthen the inside nerves. I don't decior the organs that are weak. I bring lack the nerve power which operates those organs. I give them the strength to do their duty, and that is all that is needed. My beeks explain all. But the great fact is this: Anybody

may test my treatment without risking a penny, and 39 in each

40 who test it get well. Simply state which book you want,

and address Dr. Shoop, Box 600,
